University of Calgary   2026

Bachelor of Science (Honours) in Computer Science
Bachelor of Commerce

- GPA: 3.7/4
- **Achievements**: Dean's Honour List 2021, 2022, 2025, Distinguished Business Leaders Scholarship

PROJECTS & EXPERIENCE

Frontend Developer   September 2024 - May 2025
Orbit   Calgary, AB

- Led frontend development of Orbit, an iOS app built in Swift and SwiftUI to connect nearby users with shared interests
- Implemented multiple interactive screens with SwiftUI, focusing on responsive layouts, navigation flow, and reusable UI components
- Collaborated with the backend team to integrate the Appwrite backend into the frontend, ensuring seamless functionality across features
- Maintained consistency in system design, and code quality, supporting long-term scalability of the app

IT Co-op Student   May 2024 - August 2024
Alberta Health Services   Calgary, AB

- Worked with the Desktop Collaboration Team to diagnose and resolve Microsoft Teams technical issues, ensuring minimal downtime for end-users
- Documented troubleshooting steps and technical procedures, creating resources that improved efficiency and supported user training
- Communicated technical concepts clearly and understandably to non-technical users

Administrative Support   April 2021 - July 2024
Alberta Health Services   Calgary, AB

- Accurately managed vaccination bookings while handling sensitive personal and medical information with confidentiality
- Adapted quickly to changing policies and procedures, maintaining accuracy in a fast-paced environment
- Communicated complex and evolving information clearly to a diverse public
